

I support a total ban on all unsolicited telemarketing as well as unsolicited mail. Answering telemarket calls and getting rid of unsolicited mail keeps a sixty seven year old, with many other worthy causes to busy. Many of the callers or rude people. I try hanging up and refuse to buy but they call back even the next day, same callers.

In your notice the FTC said it will take months for this to be approved. Please, Please get it done ASAP.

Helen Matthews
